

# ***Technology and Invention***

## ***Construction***

*Photographs can be enlarged at the Biggest Family Album web site.*

1. These photographs show the construction of railway tracks.  
What equipment is being used?
  
2. Describe the equipment that would be used to build railways today.  
What are the effects of these changes?
  
3. In this photograph a new bridge has been built  
alongside an old one.  
How does the construction of the two bridges differ?
