## New species of Australian fishes

Illustrations of species of Australian fishes described in this special issue.

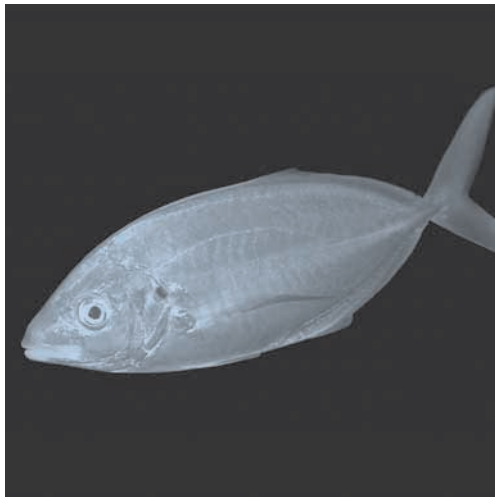

*Front top left:* head of the new weedfish *Heteroclinus kuitert* described by D.F. Hoese and D.S. Rennis.

*Middle:* juvenile of the new dory *Zenopsis stabilispinosa* described by T. Nakabo, D. Bray and U. Yamada.

*Lower:* the goby *Nesogobius maccullochi* redescribed by D.F. Hoese and H.K. Larsen (reproduced from McCulloch and Ogilby, 1919).

*Back:* the new trevally *Pseudocaranx dinjerra* described by W.F. Smith-Vaniz and H.L. Jelks.

## Memoirs of Museum Victoria

Volume 63 Number 1 2006

- 1 > A new species of *Neamia* (Perciformes: Apogonidae) from the West Pacific Ocean  
*Thomas H. Fraser and Gerald R. Allen*
- 7 > Description of two new species of *Nesogobius* (Pisces: Gobioidi: Gobiidae) from southern Australia  
*Douglass F. Hoese and Helen K. Larson*
- 15 > Description of a new species of dwarf *Philypnodon* (Teleostei: Gobioidi: Eleotridae) from south-eastern Australia  
*Douglass F. Hoese and Sally Reader*
- 21 > Description of a new species of *Heteroclinus* (Blennioi: Clinidae) from southern Australia  
*By Douglass. F. Hoese and Denise S. Rennis*
- 25 > Description of two new species of shore-eels (Gobiesocidae: Cheilobranchinae: *Alabes*) from south-eastern Australia and Norfolk Island  
*Barry Hutchins*
- 29 > Revision of the genus *Hapalogenys* (Teleostei: Perciformes) with two new species from the Indo-West Pacific  
*Yukio Iwatsuki and Barry C. Russell*
- 47 > Two new species of *Parapercis* (Perciformes: Pinguipedidae) from north-eastern Australia, and rediscovery of *Parapercis colemani* Randall & Francis, 1993  
*Jeffrey W. Johnson*
- 57 > *Simipercis trispinosa*, a new genus and species of sandperch (Perciformes: Pinguipedidae) from eastern Australia  
*Jeffrey W. Johnson and John E. Randall*
- 65 > *Notoraja hirticauda*, a new species of skate (Chondrichthyes: Rajoidei) from the south-eastern Indian Ocean  
*Peter R. Last and John D. McEachran*
- 77 > Nomenclature and distribution of the species of the porcupinefish family Diodontidae (Pisces, Teleostei)  
*Jeffrey M. Leis*
- 91 > A new species of *Zenopsis* (Zeiformes: Zeidae) from the South China Sea, East China Sea and off Western Australia  
*Tetsuji Nakabo, Dianne Bray and Umeyoshi Yamada*
- 97 > Australian trevallies of the genus *Pseudocaranx* (Teleostei: Carangidae), with description of a new species from Western Australia  
*William F. Smith-Vaniz and Howard L. Jelks*
