

Selected publications by Bill Birch in 2006–2009

Maas, R., Mills, S. Birch, W. and Hellstrom, J., 2006: Secondary U-phosphates — possible links to Quaternary pluvial periods in SE Australia. (Abstract). Goldschmidt Conference Abstracts 2006, *Geochimica et Cosmochimica Acta* 70 A379-A439.

Petersen, O. V., Secher, K. and Birch, W. D., 2006: Allanite-(Ce) and its type locality. *Rocks & Minerals*, May/June, 81 (3) (May/June), 200-205.

Grey, I. E., Birch, W. D., Bougerol, C. and Mills, S. J., 2006: Unit-cell intergrowth of pyrochlore and hexagonal tungsten bronze structures in secondary tungsten minerals. *Journal of Solid State Chemistry*, 179, 3834-3843.

Birch, W. D., 2007: Broken Hill, New South Wales, Australia: Its contribution to mineralogy. *Rocks & Minerals*, 82(1), 40-48.

Birch, W. D., 2007: Gemstones in the forest — Rev. John Bleasdale's journey to William Wallace Creek, Victoria. In: Pierson, R. R. (ed.) *The history of geology in the second half of the nineteenth century; the story in Australia, and in Victoria, from Selwyn and McCoy to Gregory – 1853 to 1903*. Earth Science History Group Conference, December 2007. Volume of Short Papers, Special Publication No. 1, Earth Sciences History Group, GSA Inc., Melbourne, Victoria. Pp 8-10.

Birch, W. D. and Mills, S. J., 2007: Sulphide–carbonate reaction in recrystallised limestone at Lilydale, Victoria, Australia: a new occurrence of phosphohedyphane. *Australian Journal of Mineralogy*, 13(2), 73-82.

Henry, D. A. and Birch, W. D., 2007: Occurrence and origin of gold nuggets in Victoria, Australia. *Rocks & Minerals*, 82(3), 188-198.

Mills, S. J. and Birch, W. D., 2007: A mineralogical note: new data on arsenate minerals from the Tsumeb mine, Namibia. *Rocks & Minerals*, 82 (2), 135-139.

Birch, W. D., Magee, C., Barron, L. M. and Sutherland, F. L., 2007: Gold- and diamond-bearing White Hills Gravel, St Arnaud district, Victoria: age and provenance based on U-Pb dating of zircon and rutile. *Australian Journal of Earth Sciences*, 54(4), 609-628.

Birch, W. D., Grey, I. E., Mills, S. J., Bougerol, C., Pring, A. and Ansermet, S., 2007: Pittongite: a new secondary tungstate from Pittong, Victoria, Australia. *Canadian Mineralogist*, 45, 857-864.

Birch, W. D., Mills, S. J., Schwendtner, K., Pring, A., Webb, J. A., Segnit, E. R. and Watts, J. A., 2007: Parwanite: a new hydrated Na-Mg-Al-phosphate from a lava cave at Parwan, Victoria, Australia. *Australian Journal of Mineralogy*, 13(1), 23-30.

Birch, B., 2008: Victoria's uranium secret. *Australasian Science*, 29, No. 8 (September), 22-24.

Mills, S. J., Kolitsch, U., Birch, W. D. and Sejkora, J., 2008: Kunatite, $\text{CuFe}^{3+}_2(\text{PO}_4)_2(\text{OH})_2 \cdot 4\text{H}_2\text{O}$, a new member of the whitmoreite group, from Lake Boga, Victoria, Australia. *Australian Journal of Mineralogy*, 14(1),

Birch, W. D., Wood, A., White, A. J. R., Mills, S. J. and Freeman, R., 2008: Aegirine-augite crystals in scoria from Mt Shadwell and Mt Anakie, Victoria, Australia. *Australian Journal of Mineralogy*, 14(1),

Mills, S. J., Birch, W. D., Kolitsch, U., Mumme, W. G. and Grey I. E., 2008: Lakebogaite, $\text{CaNaFe}^{3+}_2\text{H}(\text{UO}_2)_2(\text{PO}_4)_4(\text{OH})_2(\text{H}_2\text{O})_8$, a new uranyl phosphate with a unique crystal structure from Victoria, Australia. *American Mineralogist*, 93, 691-697.

Mills, S. J., Birch, W. D., Maas, R., Phillips, D. and Plimer, I. R., 2008: Lake Boga Granite, northwestern Victoria: mineralogy, geochemistry and geochronology. *Australian Journal of Earth Sciences* 55, 281-299.

Birch, W. D., 2008: Gem corundum from the St Arnaud district, western Victoria, Australia. *Australian Journal of Mineralogy*, 14(2), 25-30.

Mills, S. J., Grey, I. E., Mumme, W. G., Miyawaki, R., Matsubara, S., Bordet, P., Birch, W. D. and Raudsepp, M., 2008: Kolitschite, $\text{Pb}[\text{Zn}_{0.5}\square_{0.5}]\text{Fe}_3(\text{AsO}_4)_2(\text{OH})_6$, a new mineral from the Kintore opencut, Broken Hill, New South Wales. *Australian Journal of Mineralogy*, 14(2), 15-23.

Mills, S. J., Groat, L. A., Wilson, S. A., Birch, W. D. and Raudsepp, M., 2008: Angastonite, $\text{CaMgAl}_2(\text{PO}_4)_2(\text{OH})_4 \cdot 7\text{H}_2\text{O}$, a new phosphate mineral from Angaston, South Australia: description and relationship to montgomeryite-group minerals. *Mineralogical Magazine*, 72(5), 1011-1020.

Grey, I. E., Mumme, W. G., Mills, S. J., Birch, W. D. and Wilson, N. C., 2009: The crystal chemical role of zinc in alunite-type minerals: structure refinements for pure and zincian kintoreite. *American Mineralogist*, 94, 676-683.

Elliott, P., Kolitsch, U., Giester, G., Libowitzky, E., McCammon, C., Pring, A. Birch, W. D. and Brugger, J., 2009: Description and crystal structure of plimerite, $\text{ZnFe}^{3+}_4(\text{PO}_4)_3(\text{OH})_5$, the zinc analogue of rockbridgeite and frondelite, from Broken Hill, New South Wales, Australia. *Mineralogical Magazine*, 73(1), 51-68.
